

Rugs, Wraps and Other Soft Fabrics

In order to dress the set for your photoshoot, I'll provide a selection of rugs, wraps and throws in a variety of colours and textures.

There are a number of ways in which these fabrics can be used – as floor rugs, as posing mats, as basket stuffers or for wrapping/swaddling.

The most effective photographs incorporate several different fabrics, building up layers of different textures and/or colours

The images on this page display only a very small selection of the different fabrics I have available and I'm adding to my collection all the time.

Choose a specific colour scheme or just your preferred palette – neutrals, pastels, vibrant etc – and I'll select the necessary items to incorporate into your images.
